

GPA REQUIRED TEXTBOOKS: 2018-18 SCHOOL YEAR

NOTES:

- Students are expected to have all books prior to starting school in the fall. Please start in advance to allow several weeks for shipping.
- If an ISBN is listed for a particular book, you need to purchase that exact edition. Books can vary greatly from edition to edition. Teachers may refer to page numbers in the classroom or in RenWeb homework, so you will want to have the same edition they have.
 - o ISBN-10 and ISBN-13 have been provided. You can search online using either number.
 - o Double-check to make sure your search has found the edition listed on the book list.
- It is highly-recommended that you purchase new copies of consumables (workbooks, etc.). These books will have ***BUY NEW*** written by their titles in the book list.
- Art and Choir, and Speech do not appear on the book list because there are no books to purchase for these classes.
 - o The Art supply list will be provided in a separate document.

BOOK-BUYING TIPS:

- Throughout the summer, GPA families can sell or trade their used books on the group Facebook page.
 - o If you would like to join the page, search on Facebook for *Grace Prep Student/Parent Newslink* and request to join.
- www.Dealoz.com and www.GetTextbooks.com are search engines that compare prices from several hundred online booksellers, including Amazon Marketplace, Abe Books, Better World Books, Christian Book Distributors, and eBay.
 - o Search by ISBN, title, author, or keyword
 - o The sites list all available books, and identify the best new, used, and rental prices.
 - o Dealoz often lists current coupons
- Many online sellers offer free shipping on large orders, or honor coupon codes
 - o www.RetailMeNot.com maintains a list of coupon codes for various online sellers.
 - o www.BetterWorldBooks.com offers deals on bulk purchases of selected books (\$10 for 3, \$12 for 4...)
 - o www.cbd.com is a great source for textbooks, and often offers discounts or free shipping.
- Try getting creative on eBay: search by ISBN-10, ISBN-13, keywords, publisher, or parts of the title.
 - o I saved \$25 on the high school geography book by doing this – I found an auction didn't come up in a standard search because it used a shortened version of the book title.
 - o Buyer beware: Carefully check the auction description to make sure the book offered is the correct edition. Confirm with the seller, if necessary.
- For certain books, you may need to go to the publisher's website to get the best (or only!) price.
 - o www.ConsumerMath.org (Consumer Math textbook and checkbook)
 - o www.DynamicLiteracy.com (WordBuild workbooks for MS Writing)
 - o www.iew.com (certain MS Writing workbooks). Also try www.cbd.com for these IEW workbooks.
